■ NCC TOURNAMENT 2026

Complete Championship Process & Competition Flow

Format: 14 unique participants • 7 Div 1 + 7 Div 2 • 4 groups • 3 qualification contests • 8 quarter-finalists • knockout stage • recording-based result verification

14 PARTICIPANTS 7 Div 1 + 7 Div 2
↓ **RANDOM FAIR GROUP DRAW**
GROUP A: 4 | GROUP B: 4 | GROUP C: 3 | GROUP D: 3
↓ **QUALIFICATION STAGE**
ROUND 1 → ROUND 2 → ROUND 3 All 14 participants compete in all 3 contests
↓ **RECORDING + RESULT VERIFICATION**
↓ **TOP 2 FROM EACH GROUP** → 8 QUALIFIERS
↓ **QUARTER-FINALS** → 8 → 4
↓ **SEMI-FINALS** → 4 → 2
↓ **GRAND FINAL** → ■ CHAMPION

1. Tournament Setup

The NCC Tournament combines Div 1 and Div 2 participants in one championship. Division is used to create a balanced group draw, not to create separate tournaments. All participants compete under the same contest rules.

#	Participant	Codeforces	Division
1	Mubarak Wabela	Mube95	Div 2
2	Amir Nesru	Amiines	Div 1
3	Mohammed Hibet	Mamehibet	Div 2
4	Ezadin Mohammad	ezamuh4	Div 2
5	Seid Jemal	Seid11	Div 1
6	Awel Abduljelil	Awels	Div 1
7	Bilisa Mohammed	bilisamohammed	Div 2
8	Asladin Esa	asliiiisaa5	Div 2
9	Amir Adham	amiradham	Div 1
10	Misha Urgesa	Midega_Urgessa	Div 1
11	Muhammed Muktar	Muhammed_Muktar1	Div 2
12	Ramadan Hante	ramshan1k1	Div 1
13	Hayder Nasir	hayder12345	Div 2
14	Salim Mohammed	Salimm	Div 1

2. Group Draw

Create four groups with a balanced Div 1/Div 2 distribution. The exact assignment should be generated randomly within the division quotas so organizers do not manually choose participants.

Group	Div 1	Div 2	Total
A	2	2	4
B	2	2	4
C	2	1	3
D	1	2	3
Total	**7**	**7**	**14**

3. Qualification Stage — 3 Contests

All 14 participants play all three qualification contests. No participant is eliminated after Round 1 or Round 2. After Round 3, the organizer calculates the official qualification standings using the tournament's published scoring method.

Qualification Contest 1

14 participants. Run the first Codeforces contest and record the result.

Qualification Contest 2

14 participants. Everyone competes again. Record the result.

Qualification Contest 3

14 participants. Final qualification contest. After verification, finalize group standings.

Recommended qualification scoring

Use a normalized points system or placement-based points if the three contests have different difficulty. Avoid simply adding raw Codeforces scores when contest difficulty varies. Publish the scoring formula before the first contest.

4. Recording & Anti-Cheat Verification

A Codeforces result becomes an official NCC result only after the corresponding participation recording has been reviewed and approved. The purpose is to protect competitive integrity while allowing participants without PCs to participate.

Setup	Required recording / evidence	Official result
PC/Laptop	Record the contest screen and camera/face throughout the contest.	Recording is reviewed clearly and approved.
Phone	Participants who registered that they do not have a PC may compete on phone. Recording must cover the whole contest.	Pending. Recording is reviewed and approved, where practica

Verification workflow

Contest ends → Codeforces result collected → Recording submitted → Organizer review → Approved / Under Review / Rejected → Official standings updated.

Recommended review checks

• Participant identity is consistent with the registered account.

• Recording covers the relevant contest period and is sufficiently clear.

• No unauthorized person provides assistance.

• No prohibited second device, communication channel, or external assistance is used.

• The recording does not show suspicious interruptions or unexplained activity.

• For phone participants, the recording reasonably demonstrates that the participant completed the contest themselves.

Result statuses

Status	Meaning
■ VERIFIED	Recording reviewed; result is official and can affect advancement.
■ UNDER REVIEW	More evidence or organizer review is required; result does not finalize advancement yet.
■ REJECTED	Result is not accepted as an official NCC result under the published rules.

5. Qualification → Quarter-Finals

After all three qualification contests are verified, rank participants within their groups. The top two participants from each group advance.

Group	Qualified
A	A1, A2
B	B1, B2
C	C1, C2
D	D1, D2
Total	**8 quarter-finalists**

6. Knockout Stage

Quarter-final matchups:

• QF1: A1 vs B2

• QF2: B1 vs A2

• QF3: C1 vs D2

• QF4: D1 vs C2

Semi-finals:

• SF1: QF1 winner vs QF2 winner
• SF2: QF3 winner vs QF4 winner

Grand Final:

• Final: SF1 winner vs SF2 winner → ■ NCC Tournament Champion

7. Complete Competition Count

Stage	Participants	Matches/Contests
Qualification Round 1	14	1
Qualification Round 2	14	1
Qualification Round 3	14	1
Quarter-finals	8	4 × 1v1 matches
Semi-finals	4	2 × 1v1 matches
Grand Final	2	1 × 1v1 match
TOTAL	**—**	**10 competitions/matches**

8. Operational Checklist

1. Publish tournament rules before registration closes.
2. Confirm each participant's Codeforces username and registered setup (PC/Laptop or Phone).
3. Remove duplicate registrations and confirm the final participant list.
4. Perform and publish the random group draw.
5. Create/publish Qualification Contests 1–3.
6. Collect recordings after every contest.
7. Review recordings and mark results Verified / Under Review / Rejected.
8. Update official group standings only with verified results.
9. Announce the eight quarter-finalists.
10. Create and run the four quarter-final matches.
11. Create and run the two semi-final matches.
12. Run the Grand Final.
13. Verify the final result and publish the champion, runner-up, and final standings.

9. Final Championship Path

14 Participants	**4** Groups	**3** Qualification Contests	**8** Quarter-finalists
↓	↓	↓	↓
4 Quarter-final Matches	**4** Semi-finalists	**2** Semi-final Matches	**2** Finalists
↓	↓	↓	↓
■ GRAND FINAL 1 Champion			

Core principle: Codeforces provides the competitive performance data; NCC recording verification determines whether the performance is accepted as an official tournament result.
